U.S. Chemical Stockpile Demilitarization Map

Umatilla Chemical Depot

CMA

Umatilla Chemical Agent Disposal Facility
Technology: Incineration
★ STOCKPILE DESTRUCTION COMPLETE

Deseret Chemical Depot

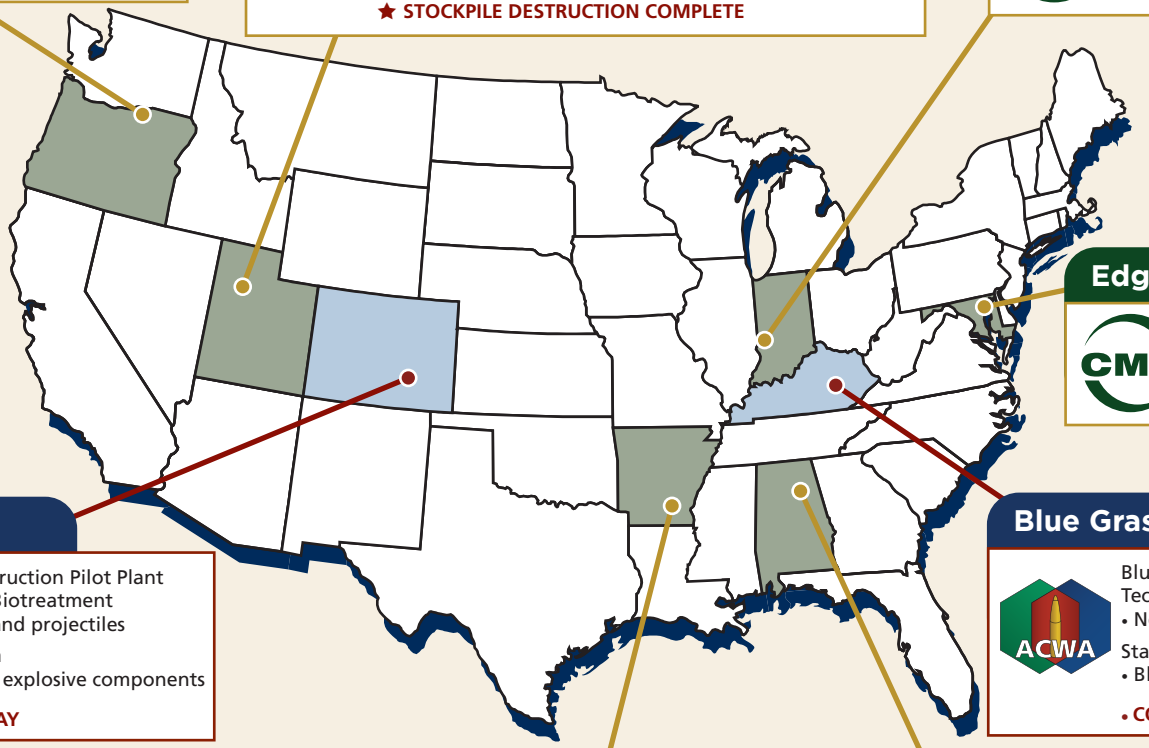
CMA

Tooele Chemical Agent Disposal Facility
Technology: Incineration
· Blister agent in projectiles, cartridges and ton containers
· Nerve agent in mines, cartridges, projectiles, rockets, bombs, spray tanks and and ton containers
★ STOCKPILE DESTRUCTION COMPLETE

Newport Chemical Depot

CMA

Newport Chemical Agent Disposal Facility
Technology: Incineration
★ STOCKPILE DESTRUCTION COMPLETE



Edgewood Chemical Activity

CMA

Aberdeen Chemical Agent Disposal Facility
Technology: Neutralization/Biotreatment
★ STOCKPILE DESTRUCTION COMPLETE

Pueblo Chemical Depot

ACWA

Pueblo Chemical Agent-Destruction Pilot Plant
Technology: Neutralization/Biotreatment
• Blister agent in cartridges and projectiles

Explosive Destruction System
• Problematic munitions and explosive components

• SYSTEMIZATION UNDER WAY

Blue Grass Chemical Activity

ACWA

Blue Grass Chemical Agent-Destruction Pilot Plant
Technology: Neutralization/Supercritical Water Oxidation
• Nerve agent in projectiles and rockets

Static Detonation Chamber
• Blister agent in projectiles

• CONSTRUCTION/SYSTEMIZATION UNDER WAY

Pine Bluff Chemical Activity

CMA

Pine Bluff Chemical Agent Disposal Facility
Technology: Incineration
★ STOCKPILE DESTRUCTION COMPLETE

Anniston Chemical Activity

CMA

Anniston Chemical Agent Disposal Facility
Technology: Incineration
★ STOCKPILE DESTRUCTION COMPLETE

Johnston Atoll

CMA

Johnston Atoll Chemical Agent Disposal System
Technology: Incineration
★ STOCKPILE DESTRUCTION COMPLETE

As of March 2014
