Partnerships and Public Involvement

Community participation and involvement forms the cornerstone of the project. Partnering with the community to discuss the project allows everyone to make informed decisions based on the facts.

BGCAPP's success depends heavily on partnerships. In addition to partnering with the community, BGCAPP has joined with multiple organizations, agencies and companies to safely and efficiently destroy the chemical weapons stockpile at BGAD. The following is a summary of key BGCAPP partners.

Blue Grass Chemical Agent-Destruction Pilot Plant (BGCAPP)			
BGCAPP will be a state-of-the-art, full-scale pilot facility designed to safely and efficiently destroy the Blue Grass chemical weapons stockpile.
