## Doug Omichinski

### Project Manager Bechtel Parsons Blue Grass

Doug Omichinski is project manager for the Bechtel Parsons Blue Grass team. His duties include leading the joint venture systems contractor team in designing, constructing, testing, operating and closing the Blue Grass Chemical Agent-Destruction Pilot Plant. He previously served as Project Manager for Bechtel's assignment to design, build, operate and close the Pueblo Chemical Agent-Destruction Pilot Plant (PCAPP). At PCAPP he also served as the project's deputy project manager, construction manager and design-build manager.

He left the PCAPP project temporarily in 2010 to become the Manager of Construction for Bechtel Systems and Infrastructure Inc. (BSII) in Frederick, Md., and was responsible for planning, organizing, coordinating and managing the construction activities of projects and the construction organizations for BSII. Doug has 32 years of international and domestic experience with Bechtel on 22 large, complex construction/engineering projects.

His experience includes nine years on major government contracts – the Department of Defense Weapons Vault Project (managing construction at sites in Italy, Greece and Turkey), the Department of Energy Hanford River Protection Project, and more than eight years on chemical demilitarization construction projects, including Anniston (contract change manager) and Aberdeen (site construction manager) before joining the PCAPP team.

Doug's international construction experience includes being site construction manager on the Mosjøen Carbon Anode Project in Mosjøen, Norway. He has worked on oil, gas and chemical projects in Northern Alberta, Canada, and the Pasminco Century Zinc/Nickel Mine and Processing Facility in Northern Queensland, Australia.

Doug began his Bechtel career as a Controls System Design Engineer on the Gulf Oil Refinery Expansion Project at Bechtel Canada's Edmonton office in 1981. In 1982, Doug moved to construction and progressed through Field Engineering and Field Supervision positions on power projects that included Colstrip 3 & 4 Coal Fired Power Plant, Diablo Canyon and Palo Verde Nuclear Power Stations, and Cogeneration Power Plants in Nucla, Colo.; Frackville, Pa.; Bakersfield, Calif.; Colstrip, Mont.; Anacortes, Wash., and East Syracuse, N.Y. Doug was the Project Field Engineer on the Chevron Alky Modernization Project in Richmond, Calif.

Doug is a Certified Professional Constructor with the American Institute of Constructors, a Project Management Professional with the Project Management Institute, a Certified Construction Manager with the Construction Management Association of America, holds a Contractor's License in California for Bechtel, is LEED GA certified and is currently on the Board of Advisors for the Construction Industry Institute. Doug has a B.S. in Instrumentation Technology Engineering.
