BLUE GRASS CHEMICAL AGENT-DESTRUCTION PILOT PLANT

BGCAPP Project Update September 2007

A Partnership for Safe Chemical Weapons Destruction

Blue Grass Chemical Agent-Destruction Pilot Plant (BGCAPP) ACCESS THE BLUE GRASS PROJECT ONLINE

Your involvement in the chemical weapons destruction program is important to us, and we're committed to keeping you informed every step of the way. We provide multiple ways for community members to stay informed about progress being made at BGCAPP, including the Assembled Chemical Weapons Alternatives (ACWA) Web site, which can be found at www.pmacwa.army.mil.

Every month we update the Web site to showcase progress that's been made on the project, and help stakeholders like you quickly access project information. Some of the Web site's highlights are described below and are just a click away.

- The Blue Grass Army Depot construction site is changing every day. The home page, www.pmacwa.army.mil, features new photos and activities on site, as well as up-to-date information on the BGCAPP team's safety record.
- BGCAPP is supporting the economy with many opportunities for the local workforce. The Web site's business opportunities page was specifically developed for potential subcontractors and job seekers to help them understand how to get involved or apply for a job at BGCAPP. Find out how you can take advantage of these opportunities at www.pmacwa.army.mil/bus_ops/index.htm
- Unable to attend a meeting of the Kentucky Chemical Demilitarization Citizens' Advisory Commission or the Chemical Destruction Community Advisory Board? The Web site features a great deal of information about the goals and histories of these organizations, as well as past meeting summaries and upcoming meeting dates. Learn about these groups and their activities at www.pmacwa.army.mil/ky/public_involvement.htm
- Copies of important environmental reports are consistently uploaded, including the Revision 4, Volume I of the Research, Development and Demonstration Permit that recently was submitted to the Kentucky Department for Environmental Protection. Peruse these documents at www.pmacwa.army.mil/ky/activities.htm

- All of the project's information products can be downloaded, including project staff biographies, news releases, brochures and a monthly project update briefing developed by Bechtel Parsons Blue Grass, the contractor responsible for the design, construction, testing, operation and closure of BGCAPP. Check out these information products at www.pmacwa.army.mil/ky/ip/index.htm
- Contact information for all project partners, including the Blue Grass Chemical Stockpile Outreach Office, is readily available online. Call or stop by the outreach office to schedule a briefing for your community or group. Contact information for outreach office staff and other project representatives is listed at www.pmacwa.army.mil/ky/contact.htm
- Your feedback is important! Fill out the online feedback form to submit questions or comments about the program. Click on the Feedback link at the top of the home page and tell us what you think.

NEED AN UPDATE ON BGCAPP?

Join us for the quarterly meeting of the Chemical Destruction Community Advisory Board and the Kentucky Chemical Demilitarization Citizens' Advisory Commission on **September 11 beginning at 1:30 p.m. in the Carl D. Perkins Building, Rooms A & B, Eastern Kentucky University** on Kit Carson Drive in Richmond.

Other upcoming local events where you can talk to a project representative include:

September 15 Spoonbread Festival

September 17 Berea Kiwanis Club

For more information, contact the Blue Grass Chemical Stockpile Outreach Office at (859) 626-8944.

www.pmacwa.army.mil

We Look Forward to Your Feedback.

To keep you better informed and seek your opinion, the Blue Grass Chemical Stockpile Outreach Office will be sending you project updates every so often. If you have questions or comments, jot them down and send the reply card back, or call the outreach office at (859) 626-8944.
