

Kentucky Environmental and Public Protection Cabinet  
Department for Environmental Protection  
Division of Waste Management

**HAZARDOUS WASTE MANAGEMENT FACILITY PERMIT**

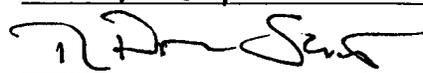

Blue Grass Army Depot  
Blue Grass Chemical Agent-Destruction Pilot Plant  
2091 Kingston Highway  
Richmond, Kentucky 40475-5060  
EPA ID KY8-213-820-105, AI 2805

The Division of Waste Management hereby grants the above-named facility and Bechtel Parsons Blue Grass a permit to engage in activity specified below. This permit has been issued under the provision of KRS Chapter 224 and regulations promulgated pursuant thereto and is subject to all conditions and operating limitations contained herein. Issuance of this permit does not relieve the permittee from the responsibility of obtaining any other permits, licenses, or approvals required by this Cabinet and/or other federal, state, and local agencies.

**Part I** -Legal Authority  
**Part II** -Specific Conditions  
**Part III** -Standard Conditions  
**Part VI** -Land Disposal Restrictions  
**Part VII** -RCRA Air Emission Standards  
**Part VIII** -Referenced Attachments

No deviation from the plans and specifications submitted with your application or the conditions specified herein is allowed, unless authorized in writing from the Division of Waste Management. Violation of the terms and conditions specified herein shall render this permit null and void. All rights of inspection by representatives of the Division of Waste Management are reserved. Conformance with all applicable Waste Management Regulations is the responsibility of the permittee. Receipt of the permit fee and financial assurance specified below is hereby acknowledged.

<b>PERMIT TYPE:</b>	RD&D	<b>PERMIT NUMBER:</b>	KY8-213-820-105
<b>TYPE OF ACTIVITY:</b>	Treatment and Storage	<b>COUNTY:</b>	Madison
<b>PERMIT FEE:</b>	ACWA Grant	<b>EFFECTIVE DATE:</b>	<u>October 30, 2005</u>
<b>CLOSURE AMOUNT:</b>	NA	<b>EXPIRATION DATE:</b>	<u>365 days of treating hazardous waste</u>

## GARA7 (BGCAPP) Blue Grass Chem. Agent-Destruction Pilot Plt.:

### Narrative Requirements:

#### PART I - Legal Authority:

---

Condition No.	Condition
T-1	<p>PART I - Legal Authority: Permittee. Pursuant to the Environmental Protection Law, as amended (KRS Chapter 224) and attendant regulations promulgated thereunder by the Kentucky Environmental and Public Protection Cabinet, in the Kentucky Administrative Regulations Title 401, a Research Development and Demonstration permit is issued to Blue Grass Army Depot and Bechtel Parson Blue Grass, 301 Highland Park Drive, Richmond, KY 40475 (hereinafter referred to as the "Permittee"), for the Blue Grass Chemical Agent-Destruction Pilot Plant, 2091 Kingston Highway, Richmond, Kentucky, 40475-5060, for treatment of hazardous waste, at latitude 37 deg. 42' 00" and longitude 84 deg. 12' 30", EPA ID KY8-213-820-105, Agency Interest 2805. Based on the following statutes and regulation: KRS 224.50-130, [KRS 224.46-530(1)(g), 401 KAR 38:060 Section 6(1)]</p>
T-2	<p>PART I - Legal Authority: Effective Date. (1) This permit is effective on October 30, 2005. (2) This permit allows for construction, will remain in effect for one (1) year after the receipt of hazardous waste, unless revoked and reissued, or terminated. (3) This permit may be renewed not more than three (3) times. Each renewal shall be for a period of not more than one (1) year. (4) Any time hazardous waste is treated in a calendar day at the facility, that day is counted toward one year (365 days). Based on the following regulations: [401 KAR 30:040, 401 KAR 38:060 Section 6]</p>
T-3	<p>PART I - Legal Authority: Sections of Permit. This permit consists of the conditions set forth in: Part I Legal Authority Part II Specific Conditions Part III Standard Conditions Part VI Land Disposal Restrictions Part VII RCRA Organic Air Emissions Standards Part VIII Referenced Attachments and the applicable waste management regulations. Based on the following statute and regulation: [KRS 224.46-530(1)(g), 401 KAR 38:030 Section 3]</p>
T-4	<p>PART I - Legal Authority: Applicable Statutes and Regulations. Applicable regulations are those which are in effect on the date of issuance, modification, revocation or reissuance of this permit. Based on the following statute: [KRS 224.46-530(1)(g)]</p>

## Narrative Requirements:

### **PART I - Legal Authority:**

---

Condition No.	Condition
T-5	<p>PART I - Legal Authority: Permit Application.</p> <p>This permit is based on the assumption that the information in the Blue Grass Chemical Agent-Destruction Pilot Plant (BGCAPP) Research, Development, and Demonstration (RD&amp;D) permit application submitted on March 11, 2004 as modified on November 24, 2004, by subsequent amendments (herein referred to as the application) is accurate and that the facility will be operated as specified in the application and this permit. Any inaccuracies found in this information could lead to the termination or modification of this permit and potential enforcement. The Permittee shall inform the Cabinet of any deviation from, or changes in the information in the application, which would affect the Permittee's ability to comply with the applicable regulations or permit conditions.</p> <p>Based on the following regulations: [401 KAR 38:030 Section 1, 401 KAR 40:040 Section 1, 401 KAR 38:040 Section 4(b)]</p>

### **PART II - Specific Conditions - Facility Description:**

---

Condition No.	Condition
T-6	<p>PART II - Specific Conditions - Facility Description: Permittee.</p> <p>This permit is issued to Blue Grass Army Depot, 2091 Kingston Highway, Richmond, KY, 40475-5060, and Bechtel Parsons Blue Grass, 301 Highland Park Drive, Richmond, KY 40475, (hereinafter referred to as the "Permittee"), for storage and treatment of hazardous waste at Blue Grass Chemical Agent-Destruction Pilot Plant, 2091 Kingston Highway, Richmond, KY, 40475-5060 .</p> <p>Based on the following regulation: [401 KAR 34:005 Section 1(93)]</p>
T-7	<p>PART II - Specific Conditions - Facility Description: Hazardous Waste Management Units.</p> <p>A summary list of the hazardous waste management units the Permittee is permitted to operate at the facility is included in Appendix A, Hazardous Waste Management Units, of this permit.</p> <p>Based on the following statute: [KRS 224.46-530(1)(g)]</p>

### **PART II - Specific Conditions - Facility Description:**

---

Condition No.	Condition
T-8	<p>PART II - Specific Conditions - Facility Description: Waste Streams. The hazardous wastes which may be treated or stored at this facility are listed below. Each of these hazardous wastes shall be managed as specified within this permit.</p> <p>Primary Waste</p> <ol style="list-style-type: none"><li>1. 155 mm rockets containing GB, and related components and overpacks.</li><li>2. 8" projectiles containing GB, and related overpacks.</li><li>3. 1-ton containers containing GB and GB hydrolysate.</li><li>4. Laboratory waste related to GB munitions processing.</li><li>5. Process waste generated during GB munitions processing.</li><li>6. Closure Waste</li></ol> <p>Secondary Waste</p> <ol style="list-style-type: none"><li>1. Metal Parts Treater Residues- D003, D004, D005, D006, D007, D008, D009, D010, D011, D022, D024, D029, D037, and/ or N001.</li><li>2. Energetics Batch Hydrolyzer/ Heater Discharge Conveyor Residues - D003, D004, D005, D006, D007, D008, D009, D010, D011, D022, D024, D029, D037, and/or N001.</li><li>3. Aluminum Filtration System Precipitate- D003, D004, D005, D006, D007, D008, D009, D010, D011, D022, D024, D029, D037, and/or N001.</li><li>4. Water Recovery Salts - D003, D004, D005, D006, D007, D008, D009, D010, D011, D022, D024, D029, D037, and/or N001.</li><li>5. Metal Parts Washer - F001, F002, F003, F004, and/or F005.</li><li>6. Closure Waste - D003, D004, D005, D006, D007, D008, D009, D010, D011, D022, D024, D029, D037, and/ or N001</li></ol> <p>Based on the following regulations and statutes: 401 KAR 34:350, KRS 224.50-130, [KRS 224.46-530(1)(g), 401 KAR 38:060 Section 6]</p>

## Narrative Requirements:

### **PART II - Specific Conditions - General Facility Standards:**

Condition No.	Condition
T-9	<p>PART II - Specific Conditions - General Facility Standards: Destruction Efficiency.</p> <p>(1) The Permittee shall demonstrate 99.9999% destruction efficiency on the initial batch of each chemical agent to be treated.</p> <p>(2) If the neutralization formula changes, or if the neutralization process changes, the Permittee shall again demonstrate 99.9999% destruction efficiency on the initial batch following the change.</p> <p>(3) The Permittee will demonstrate 99.9999% destruction efficiency upon written request by the Cabinet.</p> <p>(4) Destruction efficiency will be calculated as: % Destruction Efficiency = <math>100 \times (M1-M2)/M1</math> where: M1 = Mass of agent per reactor batch into the Agent Neutralization System (ANS) Reactor M2 = Mass of agent per reactor batch exiting the ANS Reactor in the hydrolysate.</p> <p>(5) After the demonstration of the destruction efficiency in the initial batch of each chemical agent, the testing of subsequent batches to be transferred out of the MDB will be specified in the approved Waste Analysis Plan, of the Compliance Schedule in Appendix B of this permit. Based on the following regulation and statute: 401 KAR 34:350 Section 2(2)(a), [KRS 224.46-530(1)(g)]</p>
T-10	<p>PART II - Specific Conditions - General Facility Standards: Thermal Treatment.</p> <p>All wastes treated in the Metal Parts Treater and Heated Discharge Conveyor shall be treated to 1,000 degrees Fahrenheit for a minimum of 15 minutes prior to disposal.</p> <p>Based on the following regulation and statutes: 401 KAR 34:350 Section 2(2)(a), 401 KAR 45:135 Section 2(1)(c), [KRS 224.46-530(1)(g)]</p>
T-11	<p>PART II - Specific Conditions - General Facility Standards: Stack Emission Limits.</p> <p>(1) Monitoring data from the facility shall reflect no confirmed detectable agent emissions from the Munitions Demilitarization Building (MDB) HVAC filters, and the Laboratory HVAC filters.</p> <p>(2) Additional monitoring requirements will be included in the approved Monitoring Plan, which will be submitted to the Hazardous Waste Branch Manager according to the Compliance Schedule, Appendix B.</p> <p>Based on the following regulations and statute: 401 KAR 34:350 Section 2(2)(b), KRS 224.50-130(3), [KRS 224.46-530(1)(g)]</p>
T-12	<p>PART II - Specific Conditions - General Facility Standards: Provide Workers With PPE.</p> <p>All workers within 1000 meters of the Munitions Demilitarization Building (MDB) shall be provided with an adequate level of protection against exposure to nerve agents.</p> <p>Based on the following regulation and statute: 401 KAR 34:350 Section 2(2)(d), [KRS 224.46-530(1)(g)]</p>

### Narrative Requirements:

#### **PART II - Specific Conditions - General Facility Standards:**

---

Condition No.	Condition
T-13	<p>PART II - Specific Conditions - General Facility Standards: Community Emergency Preparedness. Before receipt of hazardous waste, the Permittee shall complete provisions for development and funding of sufficient training, coordination and equipment for state and local emergency response personnel, including the health, police, fire, and emergency response fields, to assure the ability of the community to respond to releases from this facility, including development and funding of an evacuation plan by the Permittee, which demonstrates the capability of removing individuals from the largest area at risk from a worst-case release. Based on the following regulation and statute: 401 KAR 34:350 Section 2(2)(c), [KRS 224.46-530(1)(g)]</p>
T-14	<p>PART II - Specific Conditions - General Facility Standards: DEACT. All wastes exiting the Energetics Neutralization System (ENS) during hazardous waste operations, except for laboratory samples, shall meet the regulatory definition of DEACT in the Land Disposal Restrictions, Treatment Standards. Based on the following regulations: [401 KAR 37:040, 401 KAR 38:060 Section 6(1)(c)]</p>
T-15	<p>PART II - Specific Conditions - General Facility Standards: Changing Operators Before transferring operation of BGCAPP facility during its operating life, the Permittee shall notify the new operator in writing of all the permit requirements. Based on the following regulation: [401 KAR 34:020 Section 3(3)]</p>
T-16	<p>PART II - Specific Conditions - General Facility Standards: Waste Analysis Plan. The Permittee shall follow the approved Waste Analysis Plan. Based on the following regulation: [401 KAR 34:020 Section 4(2)]</p>
T-17	<p>PART II - Specific Conditions - General Facility Standards: Security. (1) The Permittee shall comply with the security requirements in the approved Procedures to Prevent Hazards. (2) The Permittee shall also:     (a) Maintain security, which monitors and controls entry to the site twenty-four (24) hours per day, seven (7) days per week.     (b) Maintain the gates, fences, and other systems around the hazardous waste facility in good operating condition at all times.     (c) Maintain signs at the entrance to the facility and other locations that are legible from twenty-five (25) feet from any direction, and the sign will have a legend from the approved Procedures to Prevent Hazards. Based on the following regulation: [401 KAR 34:020 Section 5, 401 KAR 38:060 Section 6(1)(c)]</p>

### Narrative Requirements:

#### **PART II - Specific Conditions - General Facility Standards:**

---

Condition No.	Condition
T-18	<p>PART II - Specific Conditions - General Facility Standards: Inspections and Remedies. The Permittee shall comply with all requirements in the approved Procedures to Prevent Hazards including:</p> <ul style="list-style-type: none"><li>(1) Inspection schedule</li><li>(2) Records of inspection.</li><li>(3) Remedy any deterioration or malfunction of equipment or structures.</li></ul> <p>Based on the following regulation: [401 KAR 34:020 Section 6]</p>
T-19	<p>PART II - Specific Conditions - General Facility Standards: Personnel Training. The Permittee shall conduct personnel training as required by the approved Personnel Training plan. Based on the following regulation: [401 KAR 34:020 Section 7]</p>
T-20	<p>PART II - Specific Conditions - General Facility Standards: Initial Training. All new employees hired in the positions that involve the handling, storing, or shipment of hazardous waste shall successfully complete the training within six (6) months of their employment and must not work in unsupervised positions until they have completed the training. Based on the following regulation: [401 KAR 34:020 Section 7(2)]</p>
T-21	<p>PART II - Specific Conditions - General Facility Standards: Annual Training. All employees involved in hazardous waste management at the facility shall be given appropriate training, and this training shall be repeated/reviewed annually (every 365 days). Based on the following regulation: [401 KAR 34:020 Section 7(3)]</p>
T-22	<p>PART II - Specific Conditions - General Facility Standards: Job Description and Training. The Permittee shall maintain the following documents and records at the facility:</p> <ul style="list-style-type: none"><li>(a) A job title for each position at the facility related to hazardous waste management, and the name of the employee(s) filling each job.</li><li>(b) A written Job Description for each job title, including the requisite skill, education, or other qualifications, and duties of employees assigned to each position.</li><li>(c) A written description of the type and amount of both introductory and continuing training that will be given to each job title.</li><li>(d) Records that document that the training or job experience has been given to, and completed by, facility personnel.</li></ul> <p>Based on the following regulation: [401 KAR 34:020 Section 7(4)]</p>
T-23	<p>PART II - Specific Conditions - General Facility Standards: Training Records. Training records on all personnel shall be kept until closure of the facility. Based on the following regulations: [401 KAR 34:020 Section 7(5), 401 KAR 38:060 Section 2(1)(c)]</p>

### Narrative Requirements:

#### **PART II - Specific Conditions - General Facility Standards:**

---

Condition No.	Condition
T-24	<p>PART II - Specific Conditions - General Facility Standards: General Requirements for Ignitable, Reactive, or Incompatible Wastes.</p> <p>(1) The Permittee shall take precautions to prevent accidental ignition or reaction of ignitable or reactive waste. This waste shall be separated and protected from sources of ignition or reaction including but not limited to: open flames, smoking, cutting and welding, hot surfaces, frictional heat, sparks (static, electrical, or mechanical), spontaneous ignition (for example, from heat-producing chemical reactions), and radiant heat.</p> <p>(2) While ignitable or reactive waste is being handled, the Permittee shall confine smoking and open flame to specially designated locations. "No Smoking" signs shall be conspicuously placed wherever there is a hazard from ignitable or reactive waste.</p> <p>(3) The Permittee shall take precautions to prevent uncontrolled reactions which:</p> <ul style="list-style-type: none"><li>(a) Generate extreme heat or pressure, fire or explosions, or violent reactions.</li><li>(b) Produce uncontrolled toxic mists, fumes, dusts, or gases in sufficient quantities to threaten human health or the environment.</li><li>(c) Produce uncontrolled flammable fumes or gases in sufficient quantities to pose a risk of fire or explosion.</li><li>(d) Damage the structural integrity of the device or facility.</li><li>(e) Through other like means threaten human health or the environment.</li></ul> <p>(4) The Permittee shall document compliance with this condition. This documentation may be based on references to published scientific or engineering literature, data from trial tests (for example, bench scale or pilot scale tests), waste analyses, or the results of the treatment of similar wastes by similar treatment processes and under similar operating conditions.</p> <p>Based on the following regulation: [401 KAR 34:020 Section 8]</p>

#### **PART II - Specific Conditions - Preparedness and Prevention:**

---

Condition No.	Condition
T-25	<p>PART II - Specific Conditions - Preparedness and Prevention: Safe Operation.</p> <p>The Permittee shall maintain and operate the facility to minimize the possibility of a fire, explosion, or release of hazardous waste or hazardous waste constituents which could threaten human health or the environment.</p> <p>Based on the following regulation: [401 KAR 34:030 Section 2]</p>
T-26	<p>PART II - Specific Conditions - Preparedness and Prevention: Emergency Equipment.</p> <p>The Permittee shall keep at the facility, all emergency response equipment specified in the approved Contingency Plan.</p> <p>Based on the following regulation: [401 KAR 34:030 Section 3]</p>

### Narrative Requirements:

#### **PART II - Specific Conditions - Preparedness and Prevention:**

Condition No.	Condition
T-27	<p>PART II - Specific Conditions - Preparedness and Prevention: Test Emergency Equipment</p> <p>The Permittee shall;</p> <p>(1) Test all emergency response equipment at the facility as necessary to assure its proper operation in times of emergency, in accordance with the frequency specified in the Contingency Plan.</p> <p>(2) Maintain such in good working order, to ensure proper operation in time of emergency, consistent with the inspection schedule given in the approved Procedures to Prevent Hazards and approved Contingency Plan.</p> <p>Based on the following regulation: [401 KAR 34:030 Section 4]</p>
T-28	<p>PART II - Specific Conditions - Preparedness and Prevention: Access to Communications or Alarm System.</p> <p>Whenever hazardous waste is being handled, all personnel involved in the operation must have immediate access to an internal alarm, or emergency communication device, either directly, or through visual or voice contact with another employee.</p> <p>Based on the following regulation: [401 KAR 34:030 Section 5(1)]</p>
T-29	<p>PART II - Specific Conditions - Preparedness and Prevention: Required Aisle Space.</p> <p>The Permittee must maintain sufficient aisle space to allow the unobstructed movement of personnel, fire protection equipment, spill control equipment, and decontamination equipment to any area of the facility in an emergency.</p> <p>Based on the following regulations: [401 KAR 34:030 Section 6, 401 KAR 38:060 Section 6(1)(c)]</p>
T-30	<p>PART II - Specific Conditions - Preparedness and Prevention: Arrangements with Local Authorities.</p> <p>(1) The Permittee must attempt to make the following arrangements, as appropriate for the type of waste handled at this facility, and the potential need for the services of these organizations:</p> <ul style="list-style-type: none"><li>(a) Arrangements to familiarize police, fire departments, and emergency response teams with the layout of the facility, properties, and associated hazards, of the hazardous waste handled at the facility, places where facility personnel would normally be working, entrances to any roads inside the facility, and possible evacuation routes.</li><li>(b) Where more than one (1) police and fire department might respond to an emergency, agreements designating primary emergency authority to a specific police and a specific fire department, and agreements with any others to provide support to the primary emergency authority.</li><li>(c) Agreements with state emergency response teams, emergency response contractors, other government agencies, and equipment suppliers.</li><li>(d) Arrangements to familiarize local hospitals with the properties of hazardous waste handled at the facility and the types of injuries or illnesses which could result from fires, explosions, or releases at the facility.</li></ul> <p>(2) Where state or local authorities decline to enter into such arrangements, the Permittee must document the refusal in the Operating Record.</p> <p>Based on the following regulation: [401 KAR 34:030 Section 7]</p>

### Narrative Requirements:

#### **PART II - Specific Conditions - Contingency Plan and Emergency Response:**

---

Condition No.	Condition
T-31	<p>PART II - Specific Conditions - Contingency Plan and Emergency Response: Immediate Response.</p> <p>The Permittee shall immediately carry out the procedures in the approved Contingency Plan, whenever there is a fire, explosion, or release of hazardous waste or hazardous waste constituents which could threaten human health or the environment.</p> <p>Based on the following regulation: [401 KAR 34:040 Section 2(2)]</p>
T-32	<p>PART II - Specific Conditions - Contingency Plan and Emergency Response: Minimum Content of Contingency Plan.</p> <p>(1) The approved Contingency Plan must describe the actions facility personnel will take in response to fires, explosions, and any unplanned sudden or nonsudden release of hazardous waste or hazardous waste constituents to air, soil, surface water, or ground water at the facility.</p> <p>(2) The plan must describe arrangements agreed to by local police departments, fire departments, hospitals, contractors, and state and local emergency response teams to coordinate emergency services.</p> <p>(3) The plan must list names, facility addresses, and phone numbers (office and cell) of all persons qualified to act as Emergency Coordinator, and this list must be kept up to date. Where more than one (1) person is listed, one (1) person must be named as primary Emergency Coordinator and others must be listed in the order in which they will assume responsibility as alternates.</p> <p>(4) The plan must include a list of all emergency equipment at the facility (such as agent monitoring, fire extinguishing systems, spill control equipment, communications and alarm systems (internal and external), and decontamination equipment). This list must be kept up to date.</p> <p>(5) The plan must include the location and a physical description of each item on the list, and a brief outline of its capabilities.</p> <p>(6) The plan must include an evacuation plan for facility personnel. This plan must describe signal(s) to be used to begin evacuation, evacuation routes, and alternate evacuation routes (in cases where the primary routes could be blocked by releases of hazardous waste or fires).</p> <p>Based on the following statute and regulation: KRS 224.50-130, [401 KAR 34:040 Section 3]</p>
T-33	<p>PART II - Specific Conditions - Contingency Plan and Emergency Response: Copies of Contingency Plan.</p> <p>A copy of the approved Contingency Plan, and all revisions to the plan, must be:</p> <p>(1) Maintained at the facility.</p> <p>(2) Provided to all local police departments, fire departments, hospitals, the Madison County Emergency Management Agency, Kentucky Emergency Management Agency, and other response teams that may be called upon to provide emergency services.</p> <p>(3) Provided to all outside agencies, contractors, and emergency providers that have a Memorandum of Agreement (MOA) with BGCAPP, to provide assistance in an emergency.</p> <p>Based on the following statute and regulation: KRS 224.50-130, [401 KAR 34:040 Section 4]</p>

### Narrative Requirements:

#### **PART II - Specific Conditions - Contingency Plan and Emergency Response:**

---

Condition No.	Condition
T-34	<p>PART II - Specific Conditions - Contingency Plan and Emergency Response: Amendment of Contingency Plan. The approved Contingency Plan must be reviewed, and immediately amended, if necessary, whenever:</p> <ol style="list-style-type: none"><li>(1) The facility permit is revised.</li><li>(2) The plan fails in an emergency.</li><li>(3) The facility changes (e.g., in its design, construction, operation, maintenance, or other circumstances) in a way that materially increases the potential for fires, explosions, or releases of hazardous waste or hazardous waste constituents, or changes the response necessary in an emergency.</li><li>(4) The list of Emergency Coordinators changes.</li><li>(5) The list of emergency equipment changes.</li></ol> <p>Based on the following regulation: [401 KAR 34:040 Section 5]</p>
T-35	<p>PART II - Specific Conditions - Contingency Plan and Emergency Response: Emergency Coordinator.</p> <ol style="list-style-type: none"><li>(1) At all times, an Emergency Coordinator must be on the facility premises with the responsibility for coordinating all emergency response measures.</li><li>(2) The Emergency Coordinator must be thoroughly familiar with all aspects of the facility's Contingency Plan, all operations and activities at the facility, the location and characteristics of waste handled, the location of all records within the facility, and the facility layout.</li><li>(3) The Emergency Coordinator must have the authority to commit the resources needed to carry out the approved Contingency Plan.</li></ol> <p>Based on the following regulations: [401 KAR 34:040 Section 6, 401 KAR 38:060 Section 6(1)(c)]</p>
T-36	<p>PART II - Specific Conditions - Contingency Plan and Emergency Response: Activate Alarms. Whenever there is an imminent or actual emergency situation, the Emergency Coordinator must immediately:</p> <ol style="list-style-type: none"><li>(1) Activate internal facility alarms or communication systems, where applicable, to notify all facility personnel.</li><li>(2) Notify appropriate state or local agencies as specified in the approved Contingency Plan.</li></ol> <p>Based on the following regulations: [401 KAR 34:040 Section 7(1), 401 KAR 38:060 Section 6(1)(c)]</p>
T-37	<p>PART II - Specific Conditions - Contingency Plan and Emergency Response: Evaluating Release. Whenever there is a release, fire, or explosion, the Emergency Coordinator, in coordination with the BGCA Emergency Operation Center, must immediately identify the character, exact source, amount, and aerial extent of any released materials.</p> <p>Based on the following regulations: [401 KAR 34:040 Section 7(2), 401 KAR 38:060 Section 6(1)(c)]</p>

### **PART II - Specific Conditions - Contingency Plan and Emergency Response:**

Condition No.	Condition
T-38	<p>PART II - Specific Conditions - Contingency Plan and Emergency Response: Release, Fires, or Explosions.</p> <p>(1) The Emergency Coordinator, in coordination with the BGCA Emergency Operations Center, must assess possible hazards to human health or the environment that result from a release, fire, or explosion.</p> <p>(2) This assessment must consider both direct and indirect effects of the release, fire, or explosion (e.g., the effects of any toxic irritating or asphyxiating gases that are generated, and the effects of any hazardous surface water run-off from water or chemicals used to control fire and explosions).</p> <p>Based on the following regulations: [401 KAR 34:040 Section 7(3), 401 KAR 38:060 Section 6(1)(c)]</p>
T-39	<p>PART II - Specific Conditions - Contingency Plan and Emergency Response: Notify Off-Post Emergency Responders.</p> <p>(1) If the Emergency Coordinator determines that the facility has had a release, fire, or explosion, which could threaten human health or the environment outside the facility, he must immediately report his findings to the BGCA Emergency Operations Center.</p> <p>(2) The BGCA shall:</p> <ul style="list-style-type: none"><li>(a) Immediately notify appropriate local authorities.</li><li>(b) Be available to help appropriate officials decide whether local areas should be evacuated.</li><li>(c) Use the BGANS phone to notify the Madison County EMA and KyEMA.</li><li>(d) Activate CSEPP, if necessary.</li></ul> <p>Based on the following regulations: [401 KAR 34:040 Section 7(4), 401 KAR 38:060 Section 6(1)(c)]</p>
T-40	<p>PART II - Specific Conditions - Contingency Plan and Emergency Response: Halt Operations.</p> <p>During an emergency, the Emergency Coordinator must take all reasonable measures necessary to ensure that fires, explosions, and releases do not occur, recur, or spread to other hazardous waste at the facility. These measures must include, where applicable, stopping waste feeds, collecting and containing released waste, and removing or isolating containers.</p> <p>Based on the following regulation: [401 KAR 34:040 Section 7(5)]</p>
T-41	<p>PART II - Specific Conditions - Contingency Plan and Emergency Response: Monitor Facility.</p> <p>If the facility stops operations in response to a fire, explosion, or release, the Emergency Coordinator must monitor for leaks, pressure buildup, gas generation, or ruptures in valves, pipes, or other equipment, wherever this is appropriate.</p> <p>Based on the following regulation: [401 KAR 34:040 Section 7(6)]</p>
T-42	<p>PART II - Specific Conditions - Contingency Plan and Emergency Response: Secure Recovered Waste</p> <p>Immediately after an emergency, the Emergency Coordinator must provide for treating, storing, or disposing of recovered waste, contaminated soil, surface water or ground water, or other material that results from a release, fire, or explosion at the facility.</p> <p>Based on the following regulation: [401 KAR 34:040 Section 7(7)]</p>

### Narrative Requirements:

#### **PART II - Specific Conditions - Management of Hazardous Waste in Containers:**

---

Condition No.	Condition
T-63	<p>PART II - Specific Conditions - Management of Hazardous Waste in Containers: Process Information The Permittee shall construct, operate, maintain, and inspect the container storage areas specified in this permit and as specified in the approved Process Information, which will be submitted according to the Compliance Schedule, Appendix B. Based on the following statute: [KRS 224.46-530(1)(g)]</p>
T-64	<p>PART II - Specific Conditions - Management of Hazardous Waste in Containers: Capacity. The Permittee shall not exceed the total permitted container capacity specified in Permitted Capacities, Appendix C at any given time. Based on the following statute: [KRS 224.46-530(1)(g)]</p>
T-65	<p>PART II - Specific Conditions - Management of Hazardous Waste in Containers: Permitted Waste. The Permittee shall only store those hazardous wastes specified in this permit in the specified container storage areas identified in this permit. Based on the following statute: [KRS 224.46-530(1)(g)]</p>
T-66	<p>PART II - Specific Conditions - Management of Hazardous Waste in Containers: Non-Hazardous Waste. The Permittee may store non-hazardous materials/waste in the permitted container storage areas. The following requirements must be met; (1) The Permittee shall conduct necessary testing and analysis in accordance with the approved Waste Analysis Plan, or use generator knowledge, in order to ensure that materials stored in permitted container storage areas are compatible. (2) The Permittee shall ensure that non-hazardous materials/wastes in the container storage area is counted toward the total permitted storage capacity for that area. (3) The Permittee shall maintain inventories to ensure that permitted storage capacities are not exceeded. Based on the following statute: [KRS 224.46-530(1)(g)]</p>
T-67	<p>PART II - Specific Conditions - Management of Hazardous Waste in Containers: Container Specifications. Other than chemical munitions, containers of hazardous waste shall meet performance oriented packaging (POP) standards as specified in 49 CFR Part 178, Subpart L, or other applicable DOT requirements before transporting out of the facility. Based on the following regulation and statutes: [401 KAR 38:060 Section 6(1)(c), 49 CFR 178.L, KRS 224.46-530(1)(g)]</p>
T-68	<p>PART II - Specific Conditions - Management of Hazardous Waste in Containers: Condition of Container. If a container holding hazardous waste is not in good condition (e.g. severe rusting, apparent structural defects) or if it begins to leak, the Permittee shall transfer the hazardous waste from such container to a container that is in good condition, or otherwise manage the waste in compliance with the conditions of this permit. Based on the following regulation: [401 KAR 34:180 Section 2]</p>

### Narrative Requirements:

#### **PART II - Specific Conditions - Management of Hazardous Waste in Tanks:**

---

Condition No.	Condition
T-77	<p>PART II - Specific Conditions - Management of Hazardous Waste in Tanks: Catch All. The Permittee shall construct, operate, maintain, and inspect the tank systems specified in this permit and as specified in the approved attachments of this permit. Based on the following statute: [KRS 224.46-530(1)(g)]</p>
T-78	<p>PART II - Specific Conditions - Management of Hazardous Waste in Tanks: Tank Capacity. The Permittee shall not exceed the permitted tank capacity specified in Permitted Capacities, Appendix C at any given time. Based on the following statute: [KRS 224.46-530(1)(g)]</p>
T-79	<p>PART II - Specific Conditions - Management of Hazardous Waste in Tanks: Tank Content. The Permittee shall only manage those hazardous wastes specified in this permit in the specified tank system(s) identified in this permit. Based on the following statute: [KRS 224.46-530(1)(g)]</p>
T-80	<p>PART II - Specific Conditions - Management of Hazardous Waste in Tanks: Tank Assessment Report. (1) The Permittee shall submit to Hazardous Waste Branch Manager, three (3) months prior to the required date to begin installation of new tank system (including foundation), a written Tank Assessment Report, reviewed and certified by an Professional Engineer, licensed in the Commonwealth of Kentucky, attesting that the tank system has sufficient structural integrity and is acceptable for the storing and treating of hazardous waste. A licenced professional engineer, employed by the government, doe not have to be registered in the Commonwealth of Kentucky (KRS 322.030 (2)). Documentation supporting the professional engineer's certification shall be furnished to the Hazardous Waste Branch Manager upon request. (2) The Tank Assessment Report shall follow a format approved by the Cabinet in advance of the first report. (3) The assessment shall show that the foundation, structural support, seams, connections, and integral components are adequately designed and that the tank has sufficient structural strength, compatibility with the waste(s) to be stored or treated, and corrosion protection to ensure that it will not collapse, rupture, or fail. (4) The Tank Assessment Report used by the Cabinet to review, approve, or disapprove the acceptability of the tank system design, shall include at a minimum, the following information: (a) Design standards to which tank systems are constructed. (b) Hazardous characteristics of the wastes to be handled. (c) A construction drawing. (d) A corrosion assessment. (e) All items in the approved Tank Assessment Report format. Based on the following regulations: [401 KAR 34:190 Section 3(1)(a,b), 401 KAR 38:060 Section 6(1)(c)]</p>

### Narrative Requirements:

#### **PART II - Specific Conditions - Management of Hazardous Waste in Tanks:**

---

Condition No.	Condition
T-81	<p>PART II - Specific Conditions - Management of Hazardous Waste in Tanks: Installation.</p> <p>(1) The Permittee shall ensure that proper handling procedures are adhered to in order to prevent damage to the tank system during installation.</p> <p>(2) Prior to covering, enclosing, or placing a new tank system or component in use, an independent, qualified installation inspector or an engineer, either of whom is trained and experienced in the proper installation of tank systems or components, shall inspect the system for the presence of any of the following items:</p> <ul style="list-style-type: none"><li>(a) Weld breaks.</li><li>(b) Punctures.</li><li>(c) Scrapes of protective coatings.</li><li>(d) Cracks.</li><li>(e) Corrosion.</li><li>(f) Other structural damage or inadequate construction and installation.</li></ul> <p>(3) All discrepancies (for example, structural damage or inadequate construction and installation) shall be remedied before the tank system is covered, enclosed, or placed in use.</p> <p>Based on the following regulation: [401 KAR 34:190 Section 3(2)]</p>
T-82	<p>PART II - Specific Conditions - Management of Hazardous Waste in Tanks: Installation Continued</p> <p>(1) All new tanks and ancillary equipment shall be tested for tightness prior to being covered, enclosed, or placed in use. If a tank system is found not to be tight, all repairs necessary to remedy the leak(s) in the system shall be performed prior to the tank system being covered, enclosed, or placed into use.</p> <p>(2) Ancillary equipment shall be supported and protected against physical damage and excessive stress due to settlement, vibration, expansion, or contraction.</p> <p>(3) The Permittee shall provide the type and degree of corrosion protection recommended by an independent corrosion expert, or other corrosion protection if the Cabinet believes other corrosion protection is necessary to ensure the integrity of the tank system during use of the tank system. The installation of a corrosion protection system that is field fabricated shall be supervised by an independent corrosion expert to ensure proper installation.</p> <p>Based on the following regulation: [401 KAR 34:190 Section 3(4,5,6)]</p>
T-83	<p>PART II - Specific Conditions - Management of Hazardous Waste in Tanks: Tank Records.</p> <p>(1) The Permittee shall obtain and keep on file at the facility the Tank Assessment Reports and other written statements by those persons required to certify the design of the tank system and supervise the installation of the tank system that attest that the tank system was properly designed, installed, and that repairs, if necessary, were performed.</p> <p>(2) These records shall include the certification statement:</p> <p>"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."</p> <p>Based on the following regulations: [401 KAR 34:190 Section 3(7)]</p>

#### **PART III - Standard Conditions - Definitions:**

---

Condition No.	Condition
T-110	<p>PART III - Standard Conditions - Definitions: A "Release" includes: Any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment, of any hazardous waste or hazardous waste constituents. Based on the following statute: [KRS 224.46-530(1)(g)]</p>
T-111	<p>PART III - Standard Conditions - Definitions: A "Unit": Includes, but is not limited to any area in which waste has been placed on or in the ground, any landfill, surface impoundment, waste pile, land treatment unit, incinerator, injection well, tank, container storage area, septic tank, drain field, wastewater treatment unit, elementary neutralization unit, transfer facility, or recycling equipment. Based on the following statute: [KRS 224.46-530(1)(g)]</p>

#### **PART III - Standard Conditions - Duties and Requirements:**

---

Condition No.	Condition
T-112	<p>PART III - Standard Conditions - Duties and Requirements: Duty to Comply. The Permittee must comply with all conditions of this permit. Any permit non-compliance constitutes a violation of KRS Chapter 224 and is grounds for enforcement action, permit termination, revocation and reissuance, modification, or for denial of a permit renewal application. Based on the following regulation: [401 KAR 38:030 Section 1(1)]</p>
T-113	<p>PART III - Standard Conditions - Duties and Requirements: Duty to Reapply. (1) If the Permittee wishes to continue any activity allowed under this permit beyond the expiration date, the Permittee must apply for and obtain a new permit or a renewal. (2) The Permittee holding a Research, Development, and Demonstration Permit shall submit a renewal application at least 180 days prior to the expiration of the permit. (3) The Permittee, when applying for a new or renewal of a Research, Development, and Demonstration Permit shall use form DEP 7094B entitled "Application For A Research, Development, and Demonstration Permit" (March 1992). (4) The Cabinet may require that additional information be included in the application to ensure the protection of human health or the environment. Based on the following regulations: [401 KAR 38:030 Section 1(2), 401 KAR 38:060 Section 6(1)(c)]</p>

### Narrative Requirements:

#### **PART III - Standard Conditions - Changes to the Permit:**

---

Condition No.	Condition
T-131	<p>PART III - Standard Conditions - Changes to the Permit: New Additions or Alterations. The Cabinet may modify this permit when there are material and substantial alterations or additions to the BGCAPP facility or activity which occurred after permit issuance, which justify the application of permit conditions that are different or absent in this permit. Based on the following regulation: [401 KAR 38:040 Section 2(1)(a)]</p>
T-132	<p>PART III - Standard Conditions - Changes to the Permit: New Information. (1) The Cabinet may modify this permit when the Cabinet receives new information. (2) Permits may be modified during their terms for this cause, if the information was not available at the time of permit issuance and justify the application of different permit conditions. Based on the following regulation: [401 KAR 38:040 Section 2(1)(b)]</p>
T-133	<p>PART III - Standard Conditions - Changes to the Permit: New Statutes, Standards, or Administrative Regulations. The Cabinet may modify this permit when the standards or administrative regulations on which the permit was based have been changed by statute, amended standards, or administrative regulations, or by judicial decision after the permit was issued. Based on the following regulations: [401 KAR 38:040 Section 2(1)(c)1, 401 KAR 38:060 Section 6(1)(c)]</p>
T-134	<p>PART III - Standard Conditions - Changes to the Permit: Transfer. (1) This Permit may be transferred to a new operator only if it is modified, in order to identify the new operator and incorporate such other requirements as may be necessary under KRS Chapter 224. (2) Before transferring operation of the facility, the Permittee shall notify the new operator in writing of the requirements of 401 KAR Chapters 38 and 34 and this permit. (3) This permit is not transferable to any person except after approval by the Cabinet. Based on the following regulations: [401 KAR 38:040 Section 2(2)(b), 401 KAR 38:050 Section 2, 401 KAR 38:040 Section 3, 401 KAR 38:060 Section 6(1)(c)]</p>

T-156	PART VIII - Referenced Attachments: Air Emission Standards, Subpart CC Conditions are incorporated as Appendix G of this permit. Based on the following statute: [KRS 224.46-530(1)(g)]
T-157	PART VIII - Referenced Attachments: The Research, Development and Demonstration Permit Application, Volume I is incorporated as part of this permit. Based on the following statute: [KRS 224.46-530(1)(g)]
T-158	PART VIII - Referenced Attachments: The Research, Development and Demonstration Permit Application, Volume II is incorporated as part of this permit. Based on the following statute: [KRS 224.46-530(1)(g)]

# Appendix A

## Hazardous Waste Management Units

### BGCAPP, RD&D Permit

Page 1 of 12

Item	Name	Qty.	Process
1.	Container Handling Building (CHB)	1	Container Storage Area
2.	Unpack Area (UPA)	1	Container Storage Area
3.	Explosive Containment Vestibule (ECV)	1	Container Storage Area
4.	Explosive Containment Room (ECR)	2	Container Storage Area
5.	Toxic Maintenance Area	1	Container Storage Area
6.	Dunnage Storage Area	1	Container Storage Area
7.	MDB Residue Handling Area	2	Container Storage Area
8.	Spent Decon Storage	1	Container Storage Area
9.	Laboratory Waste Handling Area	1	Container Storage Area
10.	DSH Residue Handling Area	2	Container Storage Area
11.	Agent Collection/Toxic Storage Tanks	3	Storage in Tanks
12.	Spent Decon Storage	2	Storage in Tanks
13.	Hydrolysate Sampling Tanks	4	Storage in Tanks
14.	Brine Storage Tanks	2	Storage in Tanks
15.	Recovered/Process Water Storage Tanks	3	Storage in Tanks
16.	Hydrolysate Storage Tanks	9	Storage in Tanks
17.	Laboratory Chemical Waste Tank	1	Storage in Tanks
18.	Rocket Shear Machine (RSM)	2	Mechanical Processing
19.	Projectile/Mortar Disassembly System	1	Mechanical Processing
20.	Energetics Batch Hydrolyzer (EBH)	18	Miscellaneous Unit
21.	Heated Discharge Conveyor (HDC)	2	Thermal Unit
22.	Energetics Neutralization System	6	Treatment in Tanks
23.	Aluminum Removal System	1	Miscellaneous Unit
24.	Munitions Washout System (MWS)	3	Mechanical Processing
25.	Metal Parts Treater (MPT)	2	Miscellaneous Unit
26.	Nose Closure Removal System (NCRS)	2	Mechanical Processing
27.	Agent Neutralization System (ANS)	4	Treatment in Tanks
28.	Wood Shredder	1	Mechanical Processing
29.	Micronizer	1	Mechanical Processing
30.	Plastic shredder	1	Mechanical Processing
31.	Carbon Grinder	1	Mechanical Processing
32.	Hydropulper	1	Mechanical Processing
33.	Super Critical Water Oxidizer (SCWO)	8	Miscellaneous Unit
34.	Brine Concentrator	2	Miscellaneous Unit
35.	Water Recovery System	1	Thermal Unit

# Appendix B

## Compliance Schedule

### BGCAPP, RD&D Permit

Page 2 of 12

1. Submit to the Hazardous Waste Branch Manager, the **SCWO Technical Risk Reduction Project (TRRP) Report**.
  - a. Demonstrate to the Cabinet that this is a proven technology.
  - b. Submit within 30 days of final report completion.Based on the following regulations and statutes: 38:060 Section 6(1)(c), KRS 224.50-130(3).
2. Submit to the Hazardous Waste Branch Manager, **Process Information, Tank Systems**.
  - a. Number, location, and types of all tanks (process and storage).
  - b. Submit within 45 days of government acceptance of 60% design of individual systems (i.e. MDB, HSA, and SPB).Based on the following regulations: 38:060 Section 6(1)(c), 401 KAR 34:190, 401 KAR 38:160.
3. Submit to the Hazardous Waste Branch Manager, **Process Information, Process Flow and Piping and Instrumentation Drawings (P&ID)**.
  - a. Submit the final design of each system (i.e. MDB, HSA, and SPB), no later than 24 months prior to receipt of hazardous waste.Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 38:090 Section 2.
4. Submit **Subpart X Certified Equipment Design Drawings**.
  - a. Include the following equipment:
    - i. Rocket Shear Machine (RSM)
    - ii. Projectile/Mortar Disassembly System
    - iii. Energetics Batch Hydrolyzer (EBH)
    - iv. Heated Discharge Conveyor (HDC)
    - v. Aluminum Removal System
    - vi. Munitions Washout System (MWS)
    - vii. Metal Parts Treater (MPT)
    - viii. Nose Closure Removal System (NCRS)
    - ix. Wood Shredder
    - x. Micronizer
    - xi. Plastic Shredder
    - xii. Carbon Grinder
    - xiii. Hydropulper
    - xiv. Super Critical Water Oxidizer (SCWO)
    - xv. Brine Concentrator
    - xvi. Water Recovery SystemBased on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 38:230 Section 1
5. Submit to the Hazardous Waste Branch Manager, the **Process Information, Secondary Containment Systems**.

# Appendix B

## Compliance Schedule

### BGCAPP, RD&D Permit

Page 3 of 12

- a. Include the following equipment or areas:
  - i. MDB.
  - ii. SCWO Building.
  - iii. Brine Management.
  - iv. HSA
  - v. Other areas yet to be determined.
- b. Submit no later than 45 days after government acceptance of final design of each area, but no later than 24 months prior to the receipt of hazardous waste.  
Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:190 Section 4
6. Submit to the Hazardous Waste Branch Manager, the **Process Information, Container Storage Areas**.
  - a. Include the following areas:
    - i. Container Handling Building (CHB)
    - ii. Unpack Area (UPA)
    - iii. Explosive Containment Vestibule (ECV)
    - iv. Explosive Containment Room (ECR)
    - v. Toxic Maintenance Area
    - vi. Dunnage Storage Area
    - vii. MDB Residue Handling Area
    - viii. Spent Decon Storage
    - ix. Laboratory Waste Handling Area
    - x. DSH Residue Handling Area
  - b. Submit no later than 45 days after government acceptance of final design of each area, but no later than 24 months prior to receipt of hazardous waste.  
Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:180 Section 6(2)(a).
7. Develop a **Uniform Tank Assessment Report**
  - a. To be used for all tanks.
  - b. To be approved by the Cabinet
  - c. Submit prior to the submission of the first Tank Assessment Report.  
Based on the following statute KRS 224.46-530(1)(g).
8. Submit to the Hazardous Waste Branch Manager, **Process Information, Tank Assessment Reports**.
  - a. Include all tank systems (process and storage).
  - b. Submit no later than 3 months prior to the required date to start construction of each tank system.
  - c. Approval by the Cabinet prior to installation of each tank system (including foundations).  
Based on the following regulations: 38:060 Section 6(1)(c), 401 KAR 34:190 Section 3(1).

# Appendix B

## Compliance Schedule

### BGCAPP, RD&D Permit

Page 4 of 12

9. Notify the Hazardous Waste Branch Manager, of **Process Information, Tank Certification Reports**.
  - a. Include all tank systems (process and storage).
  - b. Notify as each report becomes available.Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:190 Section 3(2).
10. Submit to the Hazardous Waste Branch Manager, **Process Information, Containers**.
  - a. Include containers not previously described in the BGAD, Chemical Storage Permit Application.
  - b. Include secondary waste containers.
  - c. Submit information no later than 36 months prior to receipt of hazardous waste.Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:180, 401 KAR 38:150.
11. Submit to the Hazardous Waste Branch Manager, **Process Information, Container Management**.
  - a. Include the following areas:
    - i. Container Handling Building (CHB)
    - ii. Unpack Area (UPA).
    - iii. Explosive Containment Vestibule (ECV).
    - iv. Explosive Containment Room (ECR).
    - v. Toxic Maintenance Area.
    - vi. Dunnage Storage Area.
    - vii. MDB Residue Handling Area.
    - viii. Spent Decon Storage.
    - ix. Laboratory Waste Handling Area.
    - x. DSH Residue Handling Area.
    - xi. Other areas yet to be determined.
  - b. Submit information 36 months prior to receipt of hazardous waste.Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:020 Section 180
12. Submit to the Hazardous Waste Branch Manager, **Procedures to Prevent Hazards, Security**.
  - a. Submit no later than 12 months prior to the receipt of hazardous waste.
  - b. Approval required prior to receipt of hazardous waste.Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:020 Section 5.
13. Submit to the Hazardous Waste Branch Manager, a **Contingency Plan**.
  - a. Submit no later than 12 months prior to the receipt of hazardous waste.
  - b. Approval required prior to receipt of hazardous waste.Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:040.

# Appendix B

## Compliance Schedule

### BGCAPP, RD&D Permit

Page 5 of 12

14. Submit to the Hazardous Waste Branch Manager, **Process Information, Controls and Practices to Prevent Spills.**
  - a. Submit no later than 18 months prior to the receipt of hazardous waste.
  - b. Include tanks, reactors, evaporators, containers, etc.
  - c. Approval required prior to receipt of hazardous waste.Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:190 Sections 5,6.
15. Submit to the Hazardous Waste Branch Manager, the **Personnel Training Plan.**
  - a. Submit no later than 24 months prior to the receipt of hazardous waste.
  - b. Approval required prior to receipt of hazardous waste.Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:020 Section 7.
16. Submit to the Hazardous Waste Branch Manager, the **Procedures to Prevent Hazards.**
  - a. Include the criteria that will be used for modifying or suspending operations if expected emissions are exceeded.
  - b. Submit no later than 12 months prior to the receipt of hazardous waste.
  - c. Approval required prior to receipt of hazardous waste.Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:020 Section 5
17. Submit to the Hazardous Waste Branch Manager, the **Procedure to Prevent Hazards, Inspection Schedule.**
  - a. Submit no later than 12 months prior to the receipt of hazardous waste.
  - b. Approval required prior to receipt of hazardous waste.Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:020 Section 6.
18. Submit to the Hazardous Waste Branch Manager, the **Waste Analysis Plan.**
  - a. Complete the development of analytical procedures, including QA/QC. Not to include the target release levels.
  - b. Submit no later than 18 months prior to the receipt of hazardous waste.
  - c. Approval required prior to receipt of hazardous waste.Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:020 Section 4.
19. Submit to the Hazardous Waste Branch Manager, **Agent Neutralization Reactor DE Test Plan.**
  - a. Provide DE test plan for the 99.9999% DE in the Agent Neutralization Reactor.
  - b. Submit 6 months prior to the receipt of hazardous waste.Based on the following regulation and statute: 401 KAR 38:060 Section 6(1)(c), KRS 224.50-130(3)(a).
20. Submit to the Hazardous Waste Branch Manager, **Agent Neutralization Reactor DE Test Results.**
  - a. Provide DE test results for the 99.9999% DE in the Agent Neutralization Reactor.

# Appendix B

## Compliance Schedule

### BGCAPP, RD&D Permit

Page 6 of 12

- b. Submit prior to releasing resulting agent hydrolysate from the MDB.  
Based on the following regulation and statute: 401 KAR 38:060 Section 6(1)(c), KRS 224.50-130(3)(a).
- 21. Submit to the Hazardous Waste Branch Manager, the **Waste Analysis Plan, Target Release Levels**.
  - a. Define all target release levels defined in the RD&D application, and other areas yet to be determined.
  - b. Submit no later than 6 months prior to the receipt of hazardous waste.
  - c. Approval required prior to receipt of hazardous waste.  
Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:020 Section 7.
- 22. Submit to the Hazardous Waste Branch Manager, **Subpart X Units, Performance Test Plans**.
  - a. Provide performance test plan for each planned test for all Subpart X units, and others yet to be determined.
  - b. Submit as soon as possible, but no later than 3 months prior to each test.  
Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 38:230 Section 1(5), 401 KAR 34:250(3).
- 23. Submit to the Hazardous Waste Branch Manager, **Subpart X Units, Performance Test Reports**.
  - a. Provide performance test results for all Subpart X units
  - b. Submit within 45 days of government acceptance of final test report  
Based on the following regulations: 401 KAR 38:060 Section 6(1)(c) 38:060 Section 6(1)(c), 401 KAR 34:020 Section 7.
- 24. Submit to the Hazardous Waste Branch Manager, the **Facility Description, Traffic**.
  - a. Certification that all roads can handle the traffic load.
  - b. Submit no later than 6 months prior to transporting hazardous waste.  
Based on the following regulations: 401 KAR 38:060 Section 6(1)(c) 38:060 Section 6(1)(c), 401 KAR 38:090 Section 2(10).
- 25. Submit to the Hazardous Waste Branch Manager, the **KY Emergency Management Approval**.
  - a. Certification that there has been resolution of critical shortcomings in the Emergency Response Plan.
  - b. Required prior to the receipt of hazardous waste.  
Based on the following regulation and statute: 401 KAR 38:060 Section 6(1)(c), KRS 224.50-130(3)(c).

# Appendix B

## Compliance Schedule

### BGCAPP, RD&D Permit

Page 7 of 12

26. Submit to the Hazardous Waste Branch Manager, the **Host Community Certification**.
- a. Provide a letter from the Madison County Judge Executive that infrastructure improvements identified in the Emergency Response Plan are complete, and that the Community Liaison position is filled.
  - b. Required prior to the receipt of hazardous waste.  
Based on the following regulation and statute: 401 KAR 38:060 Section 6(1)(c), KRS 224.50-130(7)(a).
27. Submit to the Hazardous Waste Branch Manager, the **Secondary Waste Disposal Certification**.
- a. Provide certification that a permitted facility has been identified, and has conditionally agreed to accept each of the secondary wastes generated.
  - b. Provide in the certification, the name and location of the permitted facilities.
  - c. Required 1 month prior to the receipt of hazardous waste.
  - d. If additional permitted facilities are contracted to receive secondary hazardous waste generated after BGCAPP begins processing hazardous waste, provide the name and location of the facility one month prior to shipping secondary hazardous waste to said facility.  
Based on the following regulation and statute: 401 KAR 38:060 Section 6(1)(c).
28. Submit to the Hazardous Waste Branch Manager, the **Closure Plan**.
- a. Provide a detailed Closure Plan.
  - b. Submit no later than receipt of hazardous waste.
  - c. Approval required prior to beginning closure activities.  
Based on the following regulations: 401 KAR 38:060 Section 6(1)(c), 401 KAR 34:070
29. Submit to the Hazardous Waste Branch Manager, a **Facility Risk Assessment**.
- a. Use KDEP approved risk assessment protocol
  - b. Approval required prior to the receipt of hazardous waste.  
Based on the following regulations: 401 KAR 38:060 Section 6(1)(c)
30. Submit to the Hazardous Waste Branch Manager, the **Monitoring Plan**.
- a. Provide a comprehensive Monitoring Plan.
  - b. Submit no later than 18 months prior to the receipt of hazardous waste.
  - c. Approval required prior to the receipt of hazardous waste.  
Based on the following regulation: 401 KAR 38:060 Section 6(1)(c)

# Appendix C

## Permitted Capacities

### BGCAPP, RD&D Permit

Page 8 of 12

1. Container Handling Building (CHB)	6,500.00	gallons
2. Unpack Area (UPA)	1,000.00	gallons
3. Explosive Containment Vestibule (ECV)	600.00	gallons
4. Explosive Containment Room (ECR)	30.00	gallons
5. Toxic Maintenance Area	5,500.00	gallons
6. Dunnage Storage Area	24,000.00	gallons
7. MDB Residue Handling Area	24,000.00	gallons
8. Spent Decon Storage	500.00	gallons
9. Laboratory Waste Handling Area	2,200.00	gallons
10. DSH Residue Handling Area	5,500.00	gallons
11. Agent Collection/Toxic Storage Tanks	3,600.00	gallons
12. Spent Decon Storage	20,000.00	gallons
13. Hydrolysate Sampling Tanks	160,000.00	gallons
14. Brine Storage Tanks	152,000.00	gallons
15. Recovered/Process Water Storage Tanks	228,000.00	gallons
16. Hydrolysate Storage Tanks	3,210,000.00	gallons
17. Laboratory Chemical Waste Tank	1,600.00	gallons
18. Rocket Shear Machine (RSM)	1,661.00	pounds/hour
19. Projectile/Mortar Disassembly System	315.00	pounds/hour
20. Energetics Batch Hydrolyzer (EBH)	846.00	gallons/hour
21. Heated Discharge Conveyor (HDC)	1,485.00	pounds/hour
22. Energetics Neutralization System	3,200.00	gallons/hour
23. Aluminum Removal System	20,000.00	pounds/hour
24. Munitions Washout System (MWS)	871.00	pounds/hour
25. Metal Parts Treater (MPT)	6,998.00	pounds/hour
26. Nose Closure Removal System (NCRS)	581.00	pounds/hour
27. Agent Neutralization System (ANS)	321.00	pounds/hour
28. Wood Shredder	340.00	pounds/hour
29. Micronizer	340.00	pounds/hour
30. Plastic shredder	7.50	pounds/hour
31. Carbon Grinder	160.00	pounds/hour
32. Hydropulper	4,200.00	gallons/hour
33. Super Critical Water Oxidizer (SCWO)	8,000.00	pounds/hour
34. Brine Concentrator	3,000.00	gallons/hour
35. Water Recovery System	21,600.00	gallons/day
