PRE-APPLICATION MEETING

for

THREE STATIC DETONATION CHAMBERS

Pueblo Chemical Depot Hazardous Waste Permit
#CO-13-12-23-01

U.S. Army Pueblo Chemical Depot
45825 Highway 96 East, Pueblo, Colorado 81006-9330

What is the purpose of the pre-application meeting?

Assembled Chemical Weapons Alternatives Program proposes to construct and operate three Static Detonation Chambers at the Pueblo Chemical Depot. The chambers safely treat and destroy chemical munitions, energetics, and associated waste items using indirect heat. This pre-application meeting is being provided in accordance with 6 CCR 1007-3, Part 100.11(f).

Meeting topics include an overview of the Static Detonation Chambers—the location, general process, types of waste generated and managed, waste minimization and pollution control measures.

The meeting will also describe actions associated with the Static Detonation Chambers to include:

- Permitting of off-gas treatment systems—thermal oxidation, spray dryer, baghouse filter, wet scrubbers and carbon filtration
- Change in the use of three interim permitted storage igloos to waste storage of munitions (igloos G101, G102, and G103)
- Change in the operator of two igloos for storage of hazardous waste (igloo H1102 and H1103)
- Change in the operator and permitting additional roll-off storage area for storage of scrap metal and hazardous waste in roll-offs and drums
