The U.S. Army and its contractor, Bechtel National, Inc., operated the Pueblo Chemical Agent-Destruction Pilot Plant that destroyed mustard-containing chemical munitions stored at the Pueblo Chemical Depot. The Colorado Department of Public Health and Environment issued the state RCRA No. CO-20-09-02-01 Permit on September 2, 2020.

The Army and Bechtel responded on October 31, 2023 to the state's latest round of *Notice of Deficiency (NOD) Comments for Class 2 Permit Modification Request B071 Pueblo Chemical-Agent Destruction Pilot Plant (PCAPP) Closure*, received on October 20, 2023. The Class 2 Permit Modification Request (PMR) B071, *Pueblo Chemical Agent-Destruction Pilot Plant [PCAPP] Closure Plan*, was submitted to the Division on June 22, 2023.

Due to extensive revisions made to the Closure Plan and other supporting documents, along with the additional documents submitted in response to the Notice of Deficiency, an additional 30-day comment period is open to the public. Additionally, a crosswalk has been created that lists each Notice of Deficiency comment, the Permittees response, and where in the Permit or supporting documentation the response is implemented, as applicable.
