HAZARDOUS WASTE PERMIT MODIFICATION REQUEST
PUEBLO CHEMICAL AGENT-DESTRUCTION PILOT PLANT (PCAPP)

U.S. Army Pueblo Chemical Depot
45825 Highway 96 East
Pueblo, Colorado 81006-9330

The U.S. Army and its contractor, Bechtel National, Inc., operate the Pueblo Chemical Agent-Destruction Pilot Plant that is destroying mustard-containing chemical munitions stored at the Pueblo Chemical Depot. The Colorado Department of Public Health and Environment issued the State-RCRA Permit on September 2, 2020.

The Army and Bechtel are now applying for a Class 2 Permit Modification B046, *Waste Analysis Plan, Table D-8-1, Revisions to 24852-GPP-GGL-00302*.

This permit modification request proposes to update laboratory method 24852-GPP-GGL-00302 that is listed in Table D-8-1 in Attachment D - Waste Analysis Plan. The proposed revisions include laboratory method improvements to address the increase in instrument maintenance caused by interference observed during the analysis of Depot Area Air Monitoring System (DAAMS) samples.

A Temporary Authorization is also being requested to implement the proposed revisions. The proposed revisions will prevent disruption of ongoing waste management activities and protect human health and the environment during operations.

A public meeting to discuss this permit modification request will be held at the Pueblo Chemical Stockpile Outreach Office, 104 W. B Street in Pueblo at 2:00 p.m. on June 1, 2022.
