HAZARDOUS WASTE PERMIT MODIFICATION REQUEST

**Pueblo Chemical Agent-Destruction Pilot Plant
Research, Development and Demonstration Permit
#CO-04-07-01-01**

U.S. Army Pueblo Chemical Depot
45825 Highway 96 East, Pueblo, Colorado 81006-9330

**What is the
purpose of this
permit
modification
request?**

The U.S. Army and its contractor, Bechtel National, Inc., operate the Pueblo Chemical Agent-Destruction Pilot Plant (PCAPP) that is currently destroying munitions containing mustard agent stored at the Pueblo Chemical Depot (PCD). The Colorado Department of Public Health and Environment issued the Research, Development, and Demonstration Permit on July 1, 2004.

The Army and Bechtel are applying for the following Class 2 permit modification:

Modification No. 269, Additional G-Block Storage Igloos:

This Permit Modification Request seeks the approval of the Division to operate three additional G-Block Igloos (G201, G202 and G204) for storing and staging agent and explosive contaminated hazardous wastes generated in the PCAPP Chemical Limited Area. Currently, PCAPP has insufficient storage capacity for this type of waste. Additional permitted storage capacity will provide adequate staging buffer for routine shipments and account for an increase in frequency of HEPA pre-filter change outs. Increased storage will also help PCAPP account for planned delays in waste pick-ups due to contracted Treatment, Storage and Disposal Facility planned site outages.

This Permit Modification also requests expanding the storage capacity in G203 by reconfiguring the typical storage to account for the use of pallet jacks as opposed to forklifts as pallet jacks require less room to maneuver. This arrangement will become the model for G201, G202 and G204.

The modification request can be found at <https://www.colorado.gov/pacific/cdphe/pcapp>.

**When is the public
meeting?**

A public meeting to discuss this permit modification request will be held in Pueblo at the District Attorney's office, 701 Court Street (1st floor conference room), at 2:00 p.m. on May 29, 2019.
