RE: PCAPP Temporary Authorization Request for Permit Modification Request B004,  
*Additional Waste Storage in the Agent Processing Building (APB)*

Dear Mr. Mackey:

Pursuant to 6 CCR 1007-3 Appendix I §100.63(e), the Permittees at the Pueblo Chemical Agent-Destruction Pilot Plant (PCAPP) are requesting temporary authorization to increase the waste storage capacity in the Munitions Washout System (MWS) Room in the APB by modifying Part IV, the *Hazard Preparedness and Prevention Plan*, Attachment J; and the *Inspection Plan*, Attachment K, of the PCAPP Permit, No. CO-20-09-02-01.

Details regarding the Class 2 Permit Modification Request B004, *Additional Waste Storage in the Agent Processing Building (APB)*, have been submitted separately (Chron21-00621). This Temporary Authorization is necessary to prevent disruption of ongoing waste management activities during the period when plant modifications associated with Permit Modification Request B001 are being implemented.

For all technical matters, please contact Mr. Michael Saupe, Bechtel Pueblo Team Environmental Manager, at (719) 549-5455. For all matters related to the request, please contact Dr. Patrick Sullivan with the Assembled Chemical Weapons Alternatives staff at (719) 549-4523.

Sincerely,
