#CO-04-07-01-01**

U.S. Army Pueblo Chemical Depot (PCD)
45825 Highway 96 East, Pueblo, Colorado 81006-9330

<p>What is the purpose of this permit modification request?</p>	<p>The U.S. Army and its contractor, Bechtel National, Inc., operate the Pueblo Chemical Agent-Destruction Pilot Plant destroying mustard-containing chemical munitions stored at Pueblo Chemical Depot. The Colorado Department of Public Health and Environment issued the Research, Development, and Demonstration Permit on July 1, 2004.</p> <p>The Army and Bechtel are now applying for the following Class 2 permit modification:</p> <p>Modification #106, Removal of Tank MT-B04-0301 Agitators</p> <p>This permit modification requests removal of the two agitators from the 30-Day Tank MT-B04-0301 to eliminate the leaks from the agitator seals and replacement of the current flanges that contain the penetrations for the agitator shafts with blind flanges. The change is requested to allow the tank to be returned to service to provide storage capacity for operating flexibility.</p> <p>There is limited remaining storage capacity in tanks MT-B04-0101 and MT-B04-0201. Approval of this modification will allow removal of the leaking agitators in tank MT-B04-0301 which will repair the source of the leak and allow tank MT-B04-0301 to be returned to service. The return of the storage capacity provided by tank MT-B04-0301 increases operating flexibility including the ability to contain the contents of MT-B04-0101 or MT-B04-0201 if it becomes necessary to reduce the contents of either of these tanks.</p> <p>This Permit Modification Request requires revision of Part III, Storage and Treatment in Tanks and Miscellaneous Units.</p>
<p>When is the public meeting?</p>	<p>A public meeting to discuss this permit modification request will be held in Pueblo at the District Attorney's office, 701 Court Street (1st floor conference room), at 2:00 p.m. on January 25, 2017.</p>
